

Important Enrollment Fee Information for Fall 2009

California Community College enrollment fees are determined by the State Legislature. On July 28, 2009, the legislature increased the enrollment fee effective for Fall 2009 semester from the current rate of \$20 per unit to \$26 per unit.

Here are answers to some frequently asked questions:

I have already paid my fees for Fall 2009. Will I be charged for additional fees?

Because the enrollment increase became effective Fall 2009, we are required by state law to bill you for the difference.

I have not yet paid my fees for Fall 2009. Should I pay the old enrollment fee or the new one?

To avoid being dropped from classes, you must pay your current fees reflected on your MySite account on time. The enrollment fee increase will be charged to student accounts in the near future, and students will be notified via email about their outstanding balance. In general, if you register online, your payment is due within five business days. If you register in person, your payment is due the same day you register.

If I qualify for a Board of Governors fee waiver (BOGW), will the waiver cover the fee increase?

Yes. Students who have previously applied for financial aid and qualified for a Board of Governors Fee Waiver will be fully covered, and no further action on their part is required.

How do I find out if I am eligible for the BOGW?

IVC prefers to use the [FAFSA](#) to determine eligibility for the BOGW. We use the BOGW application also. We prefer the FAFSA because more students qualify for the fee waiver using the federal eligibility index number than would qualify if we were to use the more restrictive guidelines on the shorter state BOGW application.

Is financial aid available? Go to the Irvine Valley College [Financial Aid](#) website for helpful links and information. Students who have not yet applied for financial aid may still find that assistance is available to pay for fees, books, and other expenses.
