

Elluminate *Live!* is an interactive, live eLearning and web conferencing tool which provides opportunities for real-time discussion and dynamic interaction between you and your students. Elluminate *Live!* enables you to duplicate any learning environment, from lectures and debates to small group discussions, presentations, and office hours. Elluminate *Live!* is a virtual classroom product that allows 2-way audio communications, instant messaging communications, and the use of a shared, interactive whiteboard to display educational content. Since classes are all online, they are accessible to all students. Common uses of this software platform include:

- One-to-one or one-to-many real-time online instruction.
- Live online tutoring sessions as drop-in homework help or scheduled sessions.
- Virtual office hours.
- Creating recordings as asynchronous content and reusable learning objects.
- Recording traditional classroom for later reference and review by instructors and students.
- Easily bringing Industry experts from around the world into the traditional classroom.
- Providing drop-in support and guidance.
- Delivering synchronous and asynchronous blended programs, both online and onsite.

Through the Control Panel, you can create, join, and record Elluminate *Live!* sessions. This handout describes the steps to follow for setting up Elluminate *Live!* in your Blackboard course. Elluminate *Live!* is available through the Tools area of your course:
