CURRICULUM

The dance curriculum focuses not only on training the student who wishes to transfer to a four-year institution in dance or achieve an associate degree but also on providing opportunities for students in other fields to learn about dance. There are numerous opportunities for students of all levels and interests to perform by enrolling in the dance rehearsal and performance class or participating in one of the performing groups. The curriculum includes technique courses in ballet, modern dance, jazz dance, tap, social dance, Middle Eastern and African dance; an introductory course in various dance forms; Pilates and dance conditioning courses; and academic courses in choreography, music for dance and dance history. Many of these courses meet general education requirements in the arts, humanities, health and wellness, and cultural diversity categories. Participation in formal concerts is by audition and enrollment in the dance rehearsal and performance class.

MAJOR

The associate degree in dance is designed for students who intend to transfer to a four-year institution or for those wanting to pursue dance seriously as a career. The major concentrates on developing the student's technical ability to at least the intermediate level in modern dance, ballet and jazz dance, with elective courses in tap, African and/or social dance. Students are also required to complete courses in music for dance, choreography, dance history, conditioning for dance, and dance rehearsal and performance.

Each year both faculty and students are selected to participate in various choreographic and performance festivals, competitions and events, such as the American College Dance Festival. Selection is based upon the quality of the performers and the choreography of the dance.

DEGREE OPTION

• Associate in Arts Degree in Dance

Students must complete a minimum of 60 units of credit, including the courses in the major ("Major Requirements") and general education requirements (pages 56-61), with an overall GPA of 2.0 or better. A minimum of 12 units must be completed at Irvine Valley College. See pages 52-54 for further information.

TRANSFER PREPARATION

Courses that fulfill major requirements for an associate degree at Irvine Valley College may not be the same as those required for completing the major at a transfer institution offering a baccalaureate degree. Students who plan to transfer to a four-year college or university should (1) refer to the University Studies major (page 182) and "Transfer Planning" (page 63); (2) consult the catalog of their prospective transfer institution (see the IVC Transfer Center for assistance); and (3) schedule an appointment with an IVC counselor to develop a plan of study before beginning their program. It may be helpful to meet with the department faculty at IVC.
