CURRICULUM

The curriculum includes courses in two- and three-dimensional design, drawing, painting, watercolor, and art history. All courses are designed to develop students' understanding and appreciation of the artist's technical and aesthetic concerns. Studio courses teach students both to expand their basic design, drawing and painting skills and to become more visually aware of their world.

These courses are designed for artists of all backgrounds and levels of technical ability. The curriculum in art history focuses on both the art of various world cultures and the critical theory necessary to understand visual culture within the contemporary context of analysis and criticism. Many courses offered in the art curriculum meet general education requirements in fine arts. In addition, they may be taken to satisfy the requirements for the Associate in Arts degree with a major in art.

MAJOR

Students majoring in art at the lower division level concentrate on learning the basic theoretical concepts, techniques, skills, and materials of drawing, painting, or watercolor. By learning these basics in a step-by-step process, students develop a better understanding of their powers of observation and self-expression. Students may prepare to transfer into an upper division program in two-dimensional art. Those anticipating careers in graphic arts, drawing, painting, photography, and advertising will find the major especially helpful. The Fine Arts faculty recommends that the art major not choose an art course to fulfill the general education requirement in Fine Arts and Languages, but explore one of the other arts, such as music, writing, theatre arts, or photography.

CAREER OPTIONS

Examples of careers for the art major include the following:

- Art Educator
- Commercial Artist
- Gallery and Museum Careers
- Professional Art and Design
- Technical Illustrator

ASSOCIATE DEGREE

• Associate in Arts Degree in Art

Students must complete a minimum of 60 units of credit, including the courses in the major ("Major Requirements") and general education requirements (pages 36-43), with an overall GPA of 2.0 or better. A minimum of 12 units must be completed at Irvine Valley College. See pages 32-35 for further information.

TRANSFER PREPARATION

Courses that fulfill major requirements for an associate degree at Irvine Valley College may not be the same as those required for completing the major at a transfer institution offering a baccalaureate degree. Students who plan to transfer to a four-year college or university should (1) refer to the University Studies major (page 231) and "Transfer Planning" (page 47); (2) consult the catalog of their prospective transfer institution (see the IVC Transfer Center for assistance); and (3) schedule an appointment with an IVC counselor to develop a plan of study before beginning their program. It may be helpful to meet with the department faculty at IVC.
